

AMBIENTE COLLECTION

ZOOM

There is a certain charm about living and working in industrial buildings. ZOOM is the ideal complement to such a loft atmosphere.

The look of the large-format tiles resembles a plain cement floor with subtle shadings. This style is particularly appreciated in the current design of loft apartments, where easy-to-clean ceramic tiles are a distinct plus. The tiles are made of high-quality *vilbostone* porcelain stoneware which, owing to the *Vilbostoneplus* surface seal, is resistant to staining and soiling.
